

PROVIDING COMFORT, QUALITY AND WORRY-FREE PERFORMANCE

M1200 Two-Stage, Fixed-Speed Heating Comfort

Maytag® M1200 High-Efficiency Two-Stage, Fixed-Speed Gas Furnaces

Maytag, the name that stands for reliability and dependability, offers you the perfect choice for consistent home comfort.

Let cool winds blow outside, because your Maytag furnace will provide a consistent temperature while improving comfort. The two-stage furnace works at a higher capacity on colder days or lower capacity on mild days to improve air circulation and minimize indoor temperature variations.

When you add a Maytag 2-stage gas furnace to your home, you invest in comfort and worry-free performance for years to come. Plus all Maytag gas furnaces feature a limited lifetime heat exchanger warranty. All Maytag furnaces are

quality checked over 240 times and computer run-tested before for performance at the manufacturing facility.

With Maytag's comfort accessories, you can tackle almost any indoor comfort problem. Maytag offers whole-home indoor air quality solutions to reduce dust, mold, household allergens, and more. From hot and cold spots, to improving indoor air moisture levels, or simply controlling room temperatures through program thermostats and zoning problems, Maytag has a solution. And, Maytag accessories are covered by a 12-year limited parts warranty when installed and registered with your new Maytag furnace.

Energy Efficiency

Maytag furnaces are rated in Annual Fuel Utilization Efficiency (AFUE) units. A higher AFUE rating makes it easier for your system to perform more efficiently by delivering more heat to your home and lowering your utility bills. You can be sure in the total comfort of your home that Maytag furnaces will save you more.

Three-Year Heating Savings of compared units - dollar amounts computed at \$.092 ccf, for 2,500 full-load heating hours and a system rated at 60,000 Btuh. Actual savings vary depending on climate conditions, fuel rates, and patterns of usage according to individual lifestyle.

Maytag 95.1 AFUE 2-Stage Gas Furnaces qualify as ENERGY STAR* rated products for efficiency achievement.

Quiet Comfort

The unique burner design and the insulated blower cabinet provide clean and quiet operation.

Advanced Technology

On gas units, the SmartStart® Control Board learns the igniter's heat-up characteristics. It then adapts the ignition time to the furnace's characteristics, resulting in extending the life of the igniter.

Maytag furnaces feature iSEER® technology that increases the energy efficiency of your

iSEER®

outdoor air conditioner or heat pump during the cooling season. Cooling performance is measured in terms of SEER (Seasonal Energy Efficiency Ratio). The higher the SEER, the more energy efficient the cooling system performs. Maytag furnaces featuring iSEER increase that performance by 1 SEER. Ask your dealer about Maytag's line of energy efficient outdoor products.

Innovation and Style

These models feature brushed, stainless steel doors for superior quality and rust-free durability. Maytag furnaces are also small in size making them ideal for tight spaces.

Peace of Mind

The M1200 Series of products feature a 12-Year Worry-Free Limited Warranty on parts.**

Plus, our Dependability Promise states that your entire furnace will be replaced if the heat exchanger fails within the first 12 years of ownership.**

Ask your Select Maytag heating and cooling dealer or visit us at www.maytag HVAC.com for warranty details.

*To qualify, furnaces must have a Annual Fuel Utilization Efficiency (AFUE) rating of 90% or higher.
**Applicable to the original owner.
